Marine Safety Management System

The ADCP unit has been deployed and is currently positioned on the seabed. The installation is secured by a ground chain and identified by a riser buoy and marker / pick-up buoy on the surface, as illustrated in the photograph below.

The surface buoys are positioned well clear of the South Harbour navigation channel. Mariners and Port Users are requested to remain well clear of the buoys and maintain an effective lookout by all available means whilst navigating in the area.

Port of Aberdeen
