

-  Speed limit 15mph
-  Never use mobile communications (including handsfree) when driving, operating plant or machinery
-  Keep 1m quay edge 'clear zone' free from vehicles, cargo and operations
-  Traffic must avoid travelling through operational work areas
-  Consider present and forecast weather conditions
-  Keep your work area tidy
-  Assess risks, plan work and always use safe working practices
-  Operational areas must be controlled by adequate supervision
-  Designated pedestrian walkways and pavements should be used and must be kept clear
-  PPE consisting of hard hat, hi-vis and safety footwear must be worn within the port operational areas
-  Wear buoyancy aids working within the 1m 'clear zone' and near water
-  Always use a safe means of access to board vessels
-  No smoking or vaping on the quayside

Scan the QR code to report an incident or unsafe working practice.

Alternatively, please contact

Port of Aberdeen's **Dock Control Officers** (+44 7976 927221)

or **SHEQ Department** (SHEQ@portofaberdeen.co.uk).

We all have a responsibility for health and safety.

The code of safe practice applies to all staff, contractors, sub-contractors, services and visitors who use the port.
