# Design your own accropode...

More than 9,000 giant accropodes are being made in Aberdeen for the new harbour.

The accropodes will help the breakwaters withstand some of the worst weather conditions in the North Sea, and will protect the vessels inside the port. The accropodes are placed in a very specific position on the breakwaters.

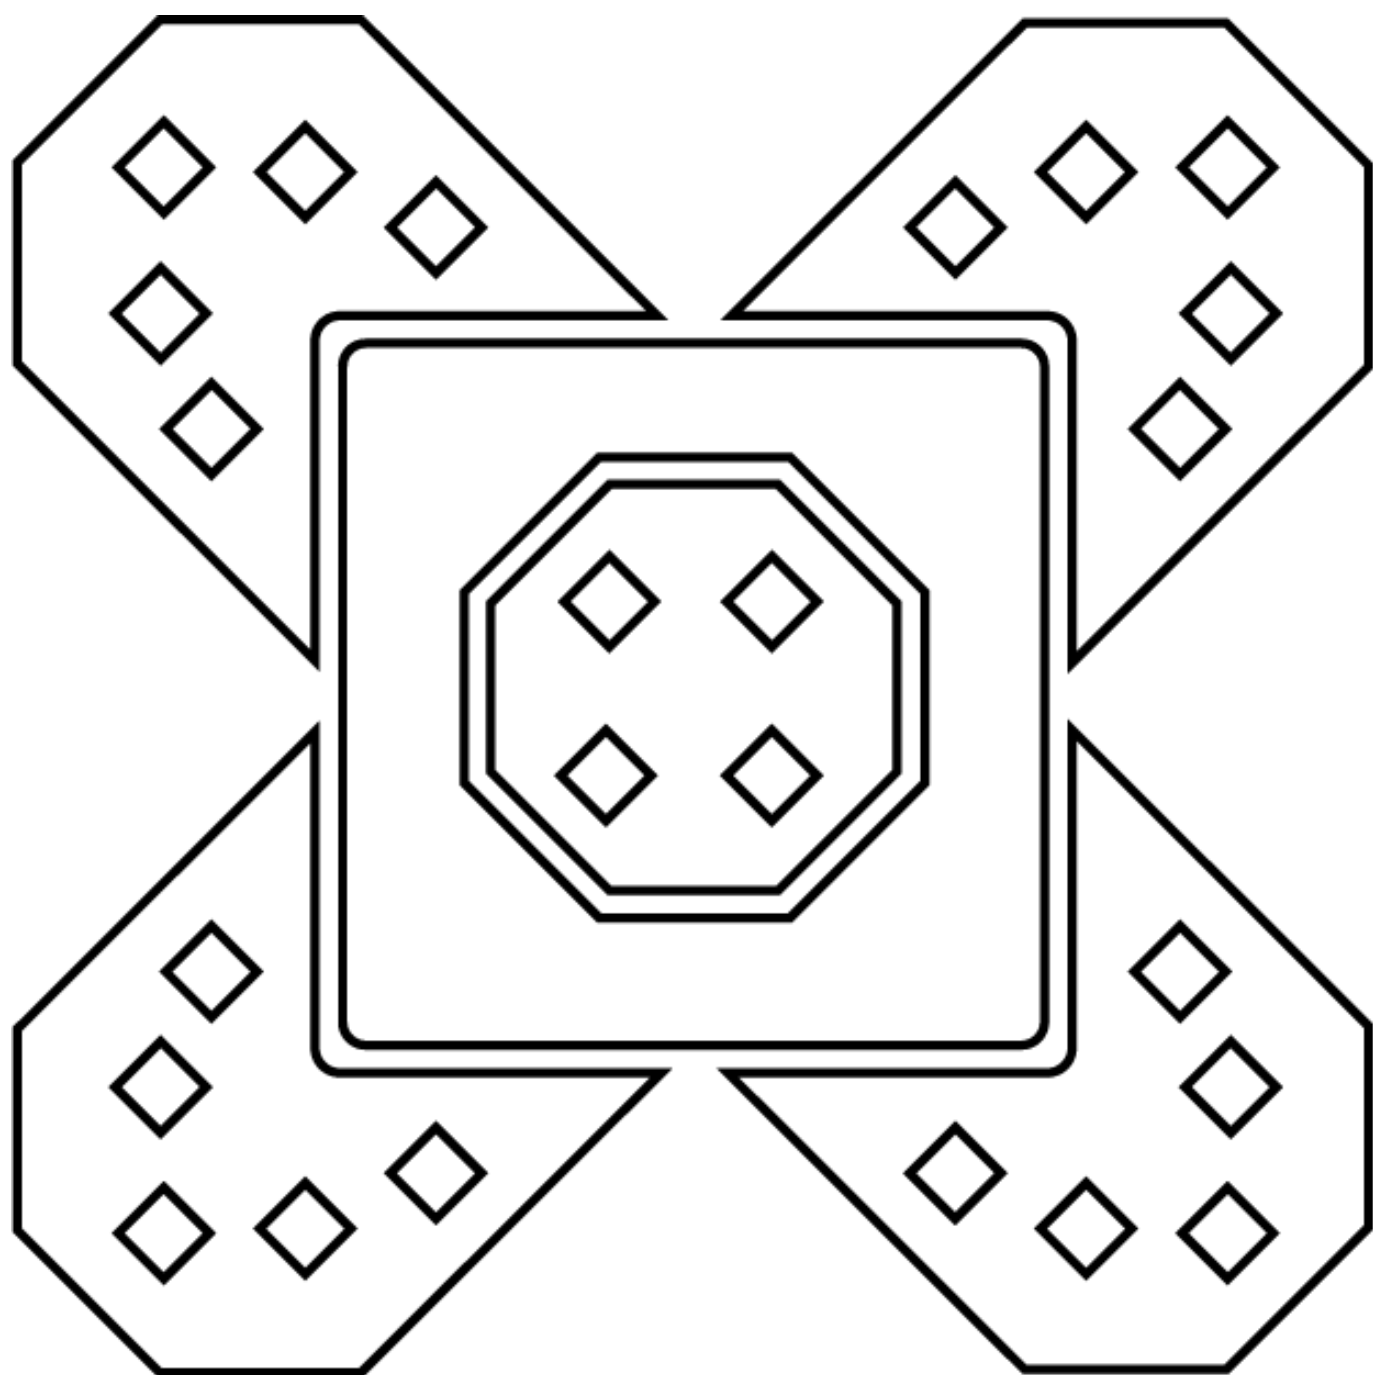

The accropodes are made out of concrete but they look a bit dull...can you design your own one using the drawing on the next page? Be creative with colour, glitter, stickers - whatever takes your fancy!

Send your finished design to the Harbour to win a **special prize!**

Email your design to [ahep-info@aberdeen-harbour.co.uk](mailto:ahep-info@aberdeen-harbour.co.uk) or post it to **S. Flynn, Aberdeen Harbour Board, 16 Regent Quay, Aberdeen, AB11 5SS**. Remember to include your name and contact details on the back of the picture.

The winner will be announced at the end of the summer holidays!
